## **Active Weather Warnings, Watches and Advisories by County:**

[http://www.wrh.noaa.gov/sto/brief/wwa\\_bc\\_cal.php](http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php)

# **WEATHER SYNOPSIS BY REGION**

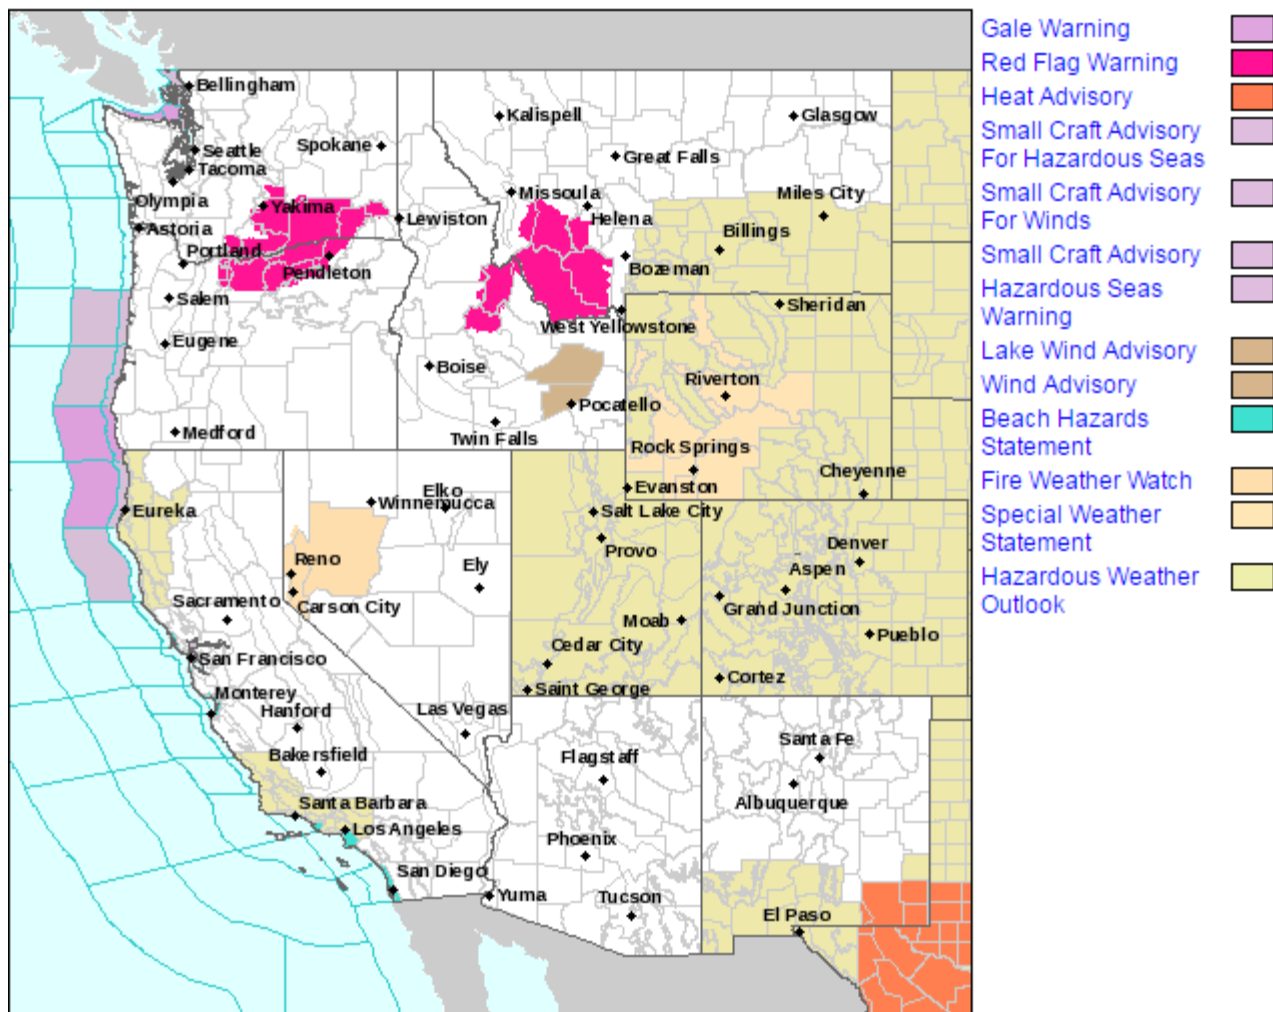

## **NORTHERN CALIFORNIA**

A weak low pressure trough will be over Northern California today, and a deeper trough will begin dropping in from the north on Independence Day. The trough will then remain overhead through next weekend. Thunderstorms activity will be well east of the region today and tomorrow, but there will be a few afternoon cumulus over the higher terrain. A cooling trend will bring afternoon temperatures in inland areas down to near normal by Monday or Tuesday, and there may be a few days with slightly below normal temperatures from Tuesday through next Sunday. The marine layer will gradually deepen and keep coastal regions mild. Strong sea breeze winds will develop each afternoon. Inland areas, especially mid-slopes and valleys, will have a summer diurnal wind pattern - light downslope during nights and mornings and upslope in afternoons - through Monday, so seasonable wind speeds and directions are expected during the afternoon peak burning period each day. Upper elevations will begin to see the effects of the deeper trough as early as today, with southwest to west winds gusting to 30 mph this afternoon and Monday afternoon. As the trough deepens over Northern California beginning Tuesday more clouds and stronger winds can be expected. Winds east of the Cascade-Sierra Crest will be southwest 10-20 mph with gusts 35-40 mph most afternoons from Tuesday through next weekend, but humidity will stay above 15% or 20% during this time. There is a slight chance of showers or thunderstorms in far northern areas late Tuesday and early Wednesday and again next Saturday as disturbances within the trough pass to our north.

## **SOUTHERN CALIFORNIA**

A very quiet weather pattern is expected this week as a pair of weak troughs move into the Pacific Northwest. The troughs will maintain a dry southwesterly flow aloft with onshore flow near the surface. This wind orientation will keep temperatures near normal and monsoon moisture deflected well to our east. High temperatures today and Monday will range from the low 70s along the coast to the upper 80s to lower 90s in the valleys to around 100 in the San Joaquin Valley. Isolated thunderstorms will be possible across the far eastern deserts today, but no thunderstorms are expected for Monday and beyond. Minimum RH will continue to drop to around 10% in the coastal ranges from 2,500 to 5,000 – including the Los Padres, Angeles and San Bernardino on desert adjacent areas. However, light winds should allow for good RH recovery at night. There will likely be some increase in winds in and near the deserts by Wednesday with gusts to 45 mph expected in and near the Antelope Valley and Banning Pass. Temperatures may edge down a degree or two during the middle of the week with an expansion of the marine layer. No heatwaves are expected during the next 7-10 days.

# CAL OES LAW ENFORCEMENT MISSIONS

## Ongoing Cal OES LAW Missions

- **2016-LAW-24894 7/2/16, 1150 hrs.,** The Riverside County Sheriff's Dept. is requesting SAR resources to assist in the search for a 57 yr old male missing in Joshua Tree National Park. The MP reportedly checked into Joshua NP on the 20th. NPS Rangers found his unoccupied vehicle on a road in the park on the 27th and have been searching since. Riverside SAR has been assisting since the 29th but have been unable to locate him. Riverside SO is requesting the following resources for two operational periods (Morning and Afternoon) on Sunday, July 3, to include: (50) Type 1/II ground searchers, (12) K9's including 6 HRD and 6 trailing, (2) mounted units and a man tracker. The following agencies were contacted and have committed ground searchers: Imperial SO Deanza SAR , San Diego SO, LASD (Sierra Madre and San Dimas Teams), and Orange SO. San Bernardino SO is providing ground searchers and a man tracker. Due to the availability of only a single mounted unit, that request was cancelled. Cal OES K-9 Unit coordinated 4 HRD's and 2 area dogs. All resources will be briefed at the CP at 0630 hrs. on Sunday, July 3, 2016. **Mission Ongoing**
